## **1. INTRODUCTION**

Thank you for downloading the *True Skies Timecycle v2.0* by The Truth '92. This modification for Grand Theft Auto: San Andreas will replace the default timecycle with a more realistic and life-like timecycle. Again, thanks for downloading!

## **3. INSTALLATION INSTRUCTIONS**

1. Navigate to your game's directory (usually C:\Program Files\Rockstar Games\GTA San Andreas).
2. Open the *data* folder in the main directory.
3. Find the *timecyc.dat* file and make a backup copy (or simply rename it something else, i.e. *timecyc\_original.dat*, etc.)
4. Paste the new *timecyc.dat* **AND** *timecyc.aaa* file into the *data* folder (NOTE: if Windows asks you to overwrite the file, make sure you made a backup of the original; renaming the original as stated in step 3 will not generate an overwrite prompt).

**NOTE:** To uninstall this modification, delete *timecyc.dat* and *timecyc.aaa*, and move your backup back into the folder (or simply name your renamed original back to *timecyc.dat*

5. In your main directory, make a backup of *gta\_sa.exe* and replace it with the one provided. **This step is necessary for SA:MP compatibility. If you choose not to replace your .exe, the timecycle will not work in SA:MP.**
